Please remember if you have any worries or concerns please discuss these with your child's teacher in the first instance.

Thank you for continued support.

Safety Tip of The Week

Stranger Danger!

When out and about, you need to always take care and be aware of strangers. With the help of your friends, you can together be stranger danger safe.

Why not create a **'Buddy System'**? If there are two of you, you can help each other whenever you are out. You can alert each other to danger, and make sure you always stay together - no walking off alone or talking to strangers!

[Safety4kids](http://Safety4kids.com)

This website has lots of ways you can stay safe from strangers - not just when you are out and about, but at other times such as when you are online, when you are playing at home or in the park.
